To understand how to build a better bus, we believe it’s important to remember how much is riding on one. That’s why, before a single weld is laid or bolt is torqued, we remind ourselves that buses are as much about the moments that go on inside as they are about the sheet metal that goes on the outside. We believe that is one of the reasons IC Buses are chosen to carry more of this country’s precious cargo than any other brand of bus.

WE NEVER FORGET WHAT GOES INTO OUR BUSES

To understand how to build a better bus, we believe it’s important to remember how much is riding on one. That’s why, before a single weld is laid or bolt is torqued, we remind ourselves that buses are as much about the moments that go on inside as they are about the sheet metal that goes on the outside. We believe that is one of the reasons IC Buses are chosen to carry more of this country’s precious cargo than any other brand of bus.
THE CE SERIES

Every memorable first day of school starts with getting there safely, which is why we take extra care when it comes to durability and reliability. For one, every CE Series comes with 16-gauge steel side sheets and 18,500-lb rear steel-spring suspension. Drivers will notice a smoother ride thanks to hydraulic brakes that provide easier stops and instant traction control. Additionally, our convenient three-piece hood and best-in-class defroster add to driver satisfaction.

The reliable, economical CE Series from IC Bus™ is built with our passengers in mind. Because we understand the people who ride our buses every day, we build them with the widest entry doors in the industry for added student convenience. We’ve found that safe student transportation is a team effort between our designers, builders, drivers, and riders. From the front safety bumper to the back driver-alert lights, we never forget why we do what we do.

WHEEL BASE
• 158′′, 169′′, 193′′, 217′′, 236′′, 254′′, 276′′

GVWR
• 19,500-31,000 lbs

FRONT SUSPENSION
• 8,000 lbs standard
• Higher ratings available

REAR SUSPENSION
• 18,500 lbs with veri-rate steel spring capability
• Higher ratings available
• Air suspension available

ENGINE
• MaxxForce® 7 - 220hp/560 lb-ft, 240hp/650 lb-ft, 260hp/620 lb-ft
• MaxxForce DT - 215hp/560 lb-ft, 230hp/620 lb-ft, 230hp/660 lb-ft, 245hp/660 lb-ft, 260hp/660 lb-ft

TRANSMISSION
• Allison 2500 PTS
• Allison 3000 PTS

BRAKES
• Full power hydraulic brakes with ABS and ATC
• Optional air brakes with ABS

INTERIOR FEATURES
• 78″ interior headroom
• Powered parking brake (hydraulic brakes only)
• Lighted steering-wheel-mounted door control and eight-way light switches
• Visual and audible alarms for low fuel, oil, voltage, coolant and high temperature
• Air filter restriction gauge
• Leave No Student Behind® post trip inspection alarm system
• Engineered to your specifications

EXTERIOR FEATURES
• Top mounted, fuel and oil filter
• Electric entrance door
• Easy-tilt three-piece fiberglass hood
• Widest entry door in the industry
• 16-gauge side sheets

CAPACITY
• 29-77 passengers
